**AMENDMENT TO THE
DOMESTIC WATER SUPPLY PERMIT ISSUED TO
Black Butte District
(Public Water System # 1100404)**

ORIGINAL PERMIT NO. **01-02-93P11006**

DATE OF ISSUE: **December 31, 1993**

PERMIT AMENDMENT NO. **01-02-93P11006A1**

EFFECTIVE DATE: **July 25, 2016**

WHEREAS:

1. Del Oro Water Company submitted an application dated August 21, 2015 to the Division of Drinking Water (Division) for a domestic water supply permit amendment issued to **Black Butte Water Company on December 31, 1993.**
2. The purpose of the amendment, as stated in the application, is to "...change ownership from Black Butte Water Company to Del Oro Water Company, Black Butte District."
3. The public water system for which the permit application has been submitted is as described briefly below:

The public water system is comprised of 87 service connections and serves an approximate population of 249. The water system receives its water from one 287 foot well drilled in 1965. Water is pumped from the well and then pressurized in a 5,000 gallon hydropneumatic tank and then to the distribution system.
4. Del Oro Water Company has submitted all supporting information required to evaluate the application.
5. The Division evaluated the application and supporting information and has determined that the permit amendment application was made in accordance with Sections 116535 and 116540 of the California Health and Safety Code (CH&SC).
6. Some chemical monitoring is due. A new Bacteriological Sample Siting Plan and Emergency Notification Plan were provided with the permit amendment application and have been reviewed by the Division.
7. Since the system only has one well with no storage capacity, it does not meet the requirements of Title 22, Section 64554 (a)(2) in that storage capacity must equal the maximum day demand, nor is there another source.

THEREFORE:

1. The Division hereby approves the application submitted by the ***Del Oro Water Company – Black Butte District*** for a permit amendment. The Domestic Water Supply Permit issued to ***Black Butte Water Company*** is hereby amended as follows:
 - a. ***Del Oro Water Company – Black Butte District is the current owner of Public Water System # 1100404***
2. The Permit is subject to the following special conditions:
 - a. ***By no later than February 1, 2017, submit a written plan to comply with the Waterworks Standards for alternate source or storage (Title 22, Section 64554 (a)(2)), or submit a waiver request per Section 64551.100 for the Division's review and consideration.***

This permit shall remain in effect unless and until it is amended, revised, reissued, or declared to be null and void by the Division. This permit is non-transferable. Should the Del Oro Water Company – Black Butte District water system undergo a change of ownership, the new owner must apply for and receive an updated domestic water supply permit.

Any change in the source of water for the water system shall not be made unless an application for such change is submitted to the Division.

This permit shall be effective as of the date shown below.
